

SAI SREERAM NANAPU

SAP BTP Developer | SAPUI5/Fiori | Full-Stack Engineer

✉ nanapusaisreeram2002@gmail.com ☎ +1 (928) 255-7249 🔗 LinkedIn 📁 Portfolio 🌐 GitHub 📍 New Jersey, USA

PROFESSIONAL SUMMARY

SAP BTP-focused Software Engineer with experience building full-stack and data-driven applications using SAPUI5/Fiori, JavaScript, TypeScript, Node.js, OData, REST APIs, and cloud services. Familiar with CAP, Cloud Foundry, ABAP Cloud, clean-core principles, and side-by-side extensibility. Additional experience with Python, SQL, authentication, databases, and AI/ML workflows.

TECHNICAL SKILLS

SAP Technologies: SAP BTP, SAPUI5, Fiori, CAP with Node.js, Cloud Foundry, OData V2, XML Views, UI5 Tooling, ABAP Cloud fundamentals, SAP HANA Cloud fundamentals, clean core, side-by-side extensibility

Programming: JavaScript, TypeScript, Node.js, Express.js, React, Angular, Python, HTML, CSS, REST APIs, OAuth 2.0

Cloud, DevOps & Databases: AWS, Azure, Docker, Kubernetes, CI/CD, Git, GitHub, Postman, MongoDB, PostgreSQL, MySQL, Redis

AI and Machine Learning: Generative AI, LLMs, RAG, AI agents, prompt engineering, scikit-learn, BioPython, BERT, LSTM

PROFESSIONAL EXPERIENCE

VIZ Digital Marketing, Associate Data Scientist

06/2026 – Present | Remote, United States

- Develop data-driven applications and technical solutions using Python, SQL, APIs, structured and unstructured data, and AI/ML workflows.
- Translate business requirements into implementable solutions and support testing, debugging, data validation, model evaluation, and iterative improvement.

InternPe, Web Development Intern

08/2023 – 09/2023 | Remote, India

- Developed a responsive e-commerce application with product browsing, reusable frontend components, navigation workflows, and cross-device compatibility.

PROJECTS

SAPUI5 Northwind Business Explorer, SAPUI5, JavaScript, XML Views, OData V2, UI5 Tooling

GitHub: <https://github.com/sai-sreeram-nanapu/sapui5-northwind-explorer>

- Built a responsive, metadata-driven SAPUI5 application that provides read-only access to all 26 datasets available through the Northwind OData V2 service.
- Developed reusable launchpad, list, and detail pages using shared controllers, formatter utilities, configuration models, and service abstractions.
- Implemented search, filtering, sorting, pagination, dynamic record counts, favourites, composite-key routing, and relationship-based navigation.
- Designed a modern SAP Horizon interface with responsive tiles, summary cards, tables, profile views, empty states, and error handling.

AI-Powered Workflow & Job Application Tracker, React, TypeScript, Node.js, Express, MongoDB Atlas, Gmail API, OAuth 2.0, LLMs

- Built a full-stack application that securely processes job-related emails through the Gmail API and OAuth 2.0.
- Converted unstructured email content into structured company, role, status, and timeline information using LLM-assisted extraction.

Blood Cancer Classification via Protein Sequence Analysis, Python, BioPython, scikit-learn, NCBI Data, Machine Learning, Render

- Developed a protein-sequence classification workflow using K-mer feature extraction and machine-learning models including logistic regression, SVM, Naive Bayes, and K-means.

Machine Learning Burnout Risk Prediction Platform, React, Node.js, Python, MongoDB, Redis, JWT, REST APIs, BERT, LSTM

- Built a full-stack prediction and analytics platform with REST APIs, JWT authentication, role-based access control, caching, persistence, and ML/NLP workflows.

EDUCATION

Northern Arizona University, Master of Science in Information Technology

08/2024 – 12/2025 | Flagstaff, AZ

GPA: 4.0/4.0 | With Distinction

Relevant Coursework: Cloud Computing Foundations, Databases, Information Security, Data Warehousing and Business Analytics, Cybersecurity Policy and Ethics, Applied Business Intelligence, Networking, and System Administration

Presidency University, Bachelor of Technology in Computer Science and Engineering

2020 – 2024 | Bangalore, India

CERTIFICATIONS AND LEARNING

SAP Learning

- Exploring SAP Business Technology Platform
- Getting Started with SAP Cloud Application Programming Model
- Developing UIs with SAPUI5
- Building Side-by-Side Fiori Applications with SAP BTP
- Setting up an ABAP Environment on SAP BTP
- ABAP Platform Fundamentals
- Basics of ABAP Programming on SAP BTP
- Managing Clean Core for SAP S/4HANA Cloud

Additional

- Microsoft Azure AI Essentials Professional Certificate
- Anthropic Claude 101 / Claude Code
- IBM Building Smarter RAG Systems
